Petros Aristidou

Curriculum Vitæ

Positions

Sept. 2016–present **University of Leeds**, *Leeds, UK*.
Lecturer (Assist. Prof.) in Smart Energy Systems

Sept. 2015–Aug. 2016 **Swiss Federal Institute of Technology (ETH Zürich)**, *Zürich, Switzerland*.
Postdoctoral Researcher

April 2014–July 2015 **University of Liège**, *Liège, Belgium*.
Research Engineer

Oct. 2010–March 2014 **University of Liège**, *Liège, Belgium*.
Graduate Researcher

Education

June 2015 **PhD in Engineering Sciences (DEng)**,
University of Liège, Liège, Belgium.
- **Thesis title:** Time-domain simulation of large electric power systems using domain-decomposition and parallel processing methods
- **Advisor:** Prof. Thierry Van Cutsem

July 2010 **Diploma in Electrical and Computer Engineering (5 year curriculum)**,
National Technical University of Athens, Athens, Greece.
- **Thesis title:** Microgrid Modeling and Analysis using Game Theory Methods
- **Advisor:** Prof. Nikolaos Hatziargyriou
- **GPA:** 9.74/10.00 (top 1% of the class and 1^{st} in the Energy speciality)

Selected Honors and Awards

2017 **High Quality Paper award** for paper 'Stability Performance of Power Electronic Devices with Time Delays', IEEE PES 2017 PowerTech, Manchester (honorary diploma)

2014 **Best Paper student award** for paper 'Parallel Computing and Localization Techniques for Faster Power System Dynamic Simulations', CIGRE 2014 Conference, Brussels (honorary diploma)

2013 **High Quality Paper award** for paper 'Dynamic Simulations of Combined Transmission and Distribution Systems using Decomposition and Localization', IEEE PES 2013 PowerTech, Grenoble (honorary diploma)

2012 **Technical Chamber of Greece award**, granted to the top students graduated from all Engineering schools in Greece (honorary diploma)

2010-2014 **Bourse de Doctorat**, research grant by the University of Liège

2010-2014 **Bodossaki Scholarship**, selected based on academic performance, granted to graduate students from Greek universities to pursue a PhD

2010 **Thomaideion award**, granted to the top 3 students graduating from the School of Electrical and Computer Engineering at the National Technical University of Athens (honorary diploma)

2010 **Grigoris Farakos award**, granted to the top 3 students graduating from the School of Electrical and Computer Engineering and the School of Mechanical Engineering following the Energy strand at the National Technical University of Athens (honorary diploma)

2005-2010 **Greek State Scholarships Foundation** (IKYE) for ranking in the top 3 among the students of the School of Electrical and Computer Engineering at the National Technical University of Athens

2005-2010 **Cyprus State Scholarships Foundation** (IKYK) for excellent performance of Cypriot students abroad

2009, 2006 **Karydogianni award** for excellent performance, awarded to students of the School of Electrical and Computer Engineering and the School of Mechanical Engineering at the National Technical University of Athens (also nominated for the award in 2007 and 2008) (honorary diploma)

2006 **Christos Papakyriakopoulos Maths award** for ranking in the top 3 in Mathematics among the students of the School of Electrical and Computer Engineering at the National Technical University of Athens (honorary diploma)

2003 **Award from the Cypriot Ministry of National Education and Religious Affairs** for ranking 1st among the students graduating from Saint Spyridon Lyceum (honorary diploma)

2003 **Member of the Cyprus National Mathematical Olympiad team,** ranked in the top 5 students under 18 in Mathematics through regional and national competitions, represented Cyprus in the Balkan Mathematical Olympiad (BMO) in Tirane, Albania (honorary diploma)

Invited Talks / Tutorials

September 2017 **Mitigating operational risk through increased real-time system awareness**, *Invited talk*, HubNet: Future of Energy Networks 2017, Bath, UK.

June 2017 **Co-organising a tutorial titled "Modelling and Dynamic Performance of Inverter-Based Generation in Power System Studies"**, *Tutorial*, CIRED 2017, Glasgow, UK.

Co-organising a special session on "Modelling and Dynamic Performance of Inverter-Based Generation in Power System Studies", *Tutorial*, IEEE PowerTech 2017, Manchester, UK.

May 2016 **Towards Active Distribution Networks: Promises & Challenges**, *Seminar presentation*, University of Leeds, UK.

May 2015 **Future of Smart Energy Systems**, *School of Electronic and Electrical Engineering*, University of Leeds, Leeds, UK.

July 2014 **Algorithmic and Computational Advances for Fast Power System Dynamic Simulations**, *Panel Session on Future Trends and Directions in Dynamic Security Assessment*, IEEE PES 2014 General Meeting, Washington DC, USA.

Algorithmic and Computational Advances for Fast Power System Dynamic Simulations, *IREQ research center*, Hydro-Québec, Montreal, Canada.

Committees/Work-groups

2014–present **Contribution to Bulk System Control and Stability by Distributed Energy Resources connected at Distribution Networks**, *IEEE PES Power System Dynamic Performance Committee*, Member.

Modelling and dynamic performance of inverter-based generation in power system transmission and distribution studies, *CIGRÉ C4-C6.35/CIRED Joint Work-Group*, Chapter leader.

Teaching

Current	**Grid-connected microgeneration systems**, *University of Leeds*, Module leader.
	Power Electronics, *University of Leeds*, Laboratory.
Past	**Introduction to Electric Power Transmission: System & Technology**, *ETH Zürich*, Teaching assistant and substitute lectures.
	Power System Dynamics, Control and Operation, *ETH Zürich*, Teaching assistant and substitute lectures.
	Electric power systems analysis and operation, *University of Liège*, Teaching assistant.
	Power system dynamics, control and stability, *University of Liège*, Teaching assistant and substitute lectures.

Grants/Project management

2016–present	Acquired funding from the University of Leeds through a competitive procedure to set up a Smart Grid laboratory (CI)
2016–present	Consulting as an independent researcher with the Hydro-Québec transmission system operator on the pilot project ”Real time Dynamic Security Assessment of the Hydro-Quebec power system”
2015–present	I was managing the Horizon2020 project MIGRATE (”Massive InteGRATion of power Electronic devices”) – ETH Zürich budget 1.2 million euros – until August 2016. It involved recruiting research personnel, attending phone-call meetings where I represented ETH Zürich, compiling progress reports, advising PhD students, attending the PI meetings, etc. Since September 2016, I am involved as an independent researcher (PIs: prof. G. Hug and F. Doerfler)

Computer Skills

Programming	Fortran, OpenMP, Python, C, MEX (matlab), BASH, Java, html, php, latex, SQL
Software	RAMSES (core developer), Matlab/Simulink, Intel Parallel Studio, Netbeans, PSpice
Platforms	Linux, Microsoft Windows

Languages

English	Fluent (C2)
Greek	Fluent (Native speaker)
French	Advanced (B2)

Professional Associations

2011–present	Cyprus Scientific and Technical Chamber (ETEK)
2010–present	IEEE Power and Energy Society
	Society for Industrial and Applied Mathematics (SIAM)

Service

Reviewer	IEEE Transactions on Smart Grids
	IEEE Transactions on Parallel and Distributed Systems
	IEEE Transactions on Power Systems
	IEEE Systems Journal
	IET Generation, Transmission & Distribution
	Power System Computation Conference (PSCC)
	IEEE ENERGYCON

Publications

Book Chapters

2017 G. Valverde, **P. Aristidou**, and T. Van Cutsem. Enhancement of transmission system voltage stability through local control of distribution networks. In *Dynamic Vulnerability Assessment and Intelligent Control for Sustainable Power Systems*. John Wiley & Sons, 2017. (in press).

H. Soleimani, G. Valverde, **P. Aristidou**, M. Glavic, and T. Van Cutsem. Operation of distribution systems within secure limits using real-time model predictive control. In *Dynamic Vulnerability Assessment and Intelligent Control for Sustainable Power Systems*. John Wiley & Sons, 2017. (in press).

2012 **P. Aristidou**, D. Fabozzi, and T. Van Cutsem. A Schur complement method for DAE systems in power system dynamic simulations. In *Domain Decomposition Methods in Science and Engineering XXI*, volume 98 of *Lecture Notes in Computational Science and Engineering*. Springer International Publishing, 2012.

2011 G. Asimakopoulou, Y. Papagrigorakis, A. L. Dimeas, **P. Aristidou**, and N. Hatziargyriou. A review of customer management tools: The energy industry. In *Energy-Efficient Computing and Networking*, volume 54 of *Lecture Notes of the Institute for Computer Sciences, Social Informatics and Telecommunications Engineering*, pages 64–72. Springer Berlin Heidelberg, 2011.

P. Aristidou, A. Dimeas, and N. Hatziargyriou. Microgrid modelling and analysis using game theory methods. In *Energy-Efficient Computing and Networking*, volume 54 of *Lecture Notes of the Institute for Computer Sciences, Social Informatics and Telecommunications Engineering*, pages 12–19. Springer Berlin Heidelberg, 2011.
